Introduction

ATLANTIC EASTERN NAVIGATION (AENAV) started with the vision to bring shipping capacity and expertise for trading in challenging areas with rich experience & know-how of specialised markets.

AENAV's commitment to work as an "In-house" department of our clients by managing overall supply chain with seamless operation & enabling clients to put their focus & resources on their core trading & manufacturing business.

AENAV's founders have rich history in the shipping industry. The company's key personnel are skilled shipping professionals with extensive experience & expertise in shipping & chartering business. AENAV commenced chartering business from Singapore, an Asian shipping hub, by setting up their chartering and operating company to trade into Far East, South East Asia and Middle Eastern markets.

Bridging the gap with a difference

The business started with team of experts in challenging areas as humble beginnings with back-to-back charters in bulk business and organically grown with time to full-fledged shipping operations & voyage management with skilled trading & operating team, expanding from regional business to international business.

After successful launch of AENAV business in Singapore, the management decided to setup operations in Dubai and at the same time, decided to move their head quarter to Dubai for managing the time zone efficiently as well as to be part of the vibrant & stable UAE business hub to handle the middle east regional trade. The Dubai office, under the umbrella of AENAV brand, offering personalized services to cater niche requirements of Middle Eastern & African shipping market with key focus in specialised shipping routes..

AENAV's HQ in Dubai handle the centralized management functions including risk assessment & mitigation for all business units in addition to Company's operating business.

To facilitate deeper penetration into the target bulk grains shipping market out of the Black Sea, AENAV set up their office in Ukraine to handle regional shipping trade as well as back-office operating functions.

Being present in three key geographical shipping regions, AENAV able to diversify its portfolio of shipping trade by participating in major tonnage / cargo to enable its team to capture the right opportunities at right time & place. AENAV's organic growth reached to new milestone, when AENAV's management decided to extend its business operation to the Country of Portunus, God of shipping and started its office in Piraeus, Greece in year 2022.

Today, AENAV is actively involved in shipping trade routes with key origin & destination countries around the world while having physical regional offices around the world with key focus shipping markets in Far East, Indian Sub-Continent, Middle East, West Africa, South America, Mediterranean & Black Sea.
